eW Blast Powercore gen4 - Customisable exterior LED wash fixture with solid white light

eW Blast Powercore gen4

eW Blast Powercore gen4 high-performance LED luminaires provide a high-intensity wash of white light with simplified installation. eW Blast Powercore gen4 offers a range of accessories that allow for customisable beam angles for floodlighting, spotlighting, wall washing and grazing, along with the efficiency and cost-effectiveness of Powercore technology in a rugged die-cast aluminum housing.

Benefits

- Higher lumen output for a fixed white fixture
- Precision Dimming down to 1%
- Complete set of accessories for easy specification

eW Blast Powercore gen4

Features

- Expands customisation with a wide range of new accessory options. In addition to the native 6° lens, five different diffuser lenses can customise the fixture to produce 20°, 40°, 60°, 80° and 10° x 40° (asymmetric) beam angles. FTA delivers a uniformity ratio of less than 4:1 on a 6 m (20 ft) wall with a 1 m (3 ft) setback.
- Three housing colour choices (black, grey and white) – plus the option to add or combine a louvre, rock guard, full glare shield and half glare shield – create new aesthetic possibilities for designers and architects.
- Improves durability with a new flat lens that prevents water from pooling into the fixture, keeping the LEDs protected and secure over the course of a luminaire's lifetime.
- Integrates patented Powercore technology that controls power output to fixtures directly from line voltage – rapidly, efficiently and accurately. The Color Kinetics Data Enabler Pro merges line voltage with control data and delivers them to fixtures over a single standard cable, dramatically simplifying installation and lowering total system cost.
- The Color Kinetics Data Enabler Pro merges line voltage with control data and delivers them to luminaires over a single standard cable, dramatically simplifying installation and lowering total system cost.
- Precision Dimming – Smooth dimming down to 1% with an optional Data Enabler Pro and digital control interface.

Application

- Buildings facades
- Monuments and sculptures
- Parks and gardens
- Bridges and structures
