EN - SAFETY INSTRUCTIONS

This manual it contains definitions of all potentially applicable parameters & specifications with icons, as per international norms and safety standards. However not all of them may be applicable for the product you purchased - please refer to the icons on the additional Manual A, for the ones which are particularly applicable for this product.

- Read, follow, keep and use the installation, usage and functioning of the product, always follow these instructions carefully and keep them for future reference.
- Always switch off the power prior to installation, maintenance or repair activities.
- Always consult a professional in advance, for choosing the right fastener for a secure mounting of the product. Take into account the weight of the product and the material of the mounting surface.
- If in doubt, consult a qualified or licensed electrician or contact your retail outlet. Ensure the product is always installed according to relevant regulations. Certain regulations indicate that electrical products must be installed only by a licensed electrician (e.g. Part P for the UK, AS/NZS3000 IN for AUSTRALIA (NEW ZEALAND)).
- Always tighten the terminal screws firmly, especially attachments for low voltage wiring (12V) and mains wiring. Loose connections can cause fire or short circuit. Pull gently on each wire to ensure it is tight.
- Clean the product only with a dry cloth, do not use abrasives or solvents. Avoid liquids on all electrical parts.
- Mount wall lights out of children's reach.
- If the product is mounted on a metallic surface, this surface must be bonded to the protective earth conductor of the installation according to relevant regulations.
- Always consider all relevant specifications of the product. Verify dates on the identification label on the product and icons shown in part A of these safety instructions.
- Immediately replace a cracked or broken transucent cover and only use manufacturer approved parts.
- It is advised to only use "Philips"-branded bulbs.
- Keep packaging materials out of children's reach, (e.g. plastic bags).
- Electrical products, which are not used or installed according to or used with high quality materials or accessories, should not be accepted and returned. When this cannot be avoided, the product is subject to a product it means the product is covered by the European Directive 2012/19/EU.
- EU Please inform yourself about the local separate collection system for electrical and electronic products. Please act according to your local rules and do not dispose of your old product with your normal household waste. The correct disposal of your product will help prevent potential negative consequences for the environment and human health.
- **ATTENTION: Below you will find all the explanations with numeric reference to the icons respectively in front of these safety instructions:**
- 01- The product is for indoor use only (IP20 minimum).
- 02- The product is not suitable for installation in bathrooms, certainly not in the specified zone.
- 03- The product is suitable for mounting on normally flammable surfaces.
- 04- The product is not suitable for direct mounting on normally flammable surfaces.
- 05- The product is not suitable for covering with thermally insulating material.
- 06- The product is only suitable for mounting on the ceiling.
- 07- The product is only suitable for mounting on the wall.
- 08- Mount only at the specified height above the floor or ground.
- 09- Always take into consideration the minimum distance, as indicated on the icon, between the lamp and the lighted object.
- 10- IP11: The product is protected against dripping water.
- 11- IPX3: The product may be exposed to randomly falling drops under a maximum angle of 60° (from the vertical axis).
- 12- IPX4: The product is splash-proof. It may be exposed to splashing water coming from any direction.
- 13- IPX5: The product is protected against water jets.
- 14- IPX7: The product can be installed into the ground.
- 15- IPX8: The product is protected against immersion up to the indicated depth.
- 16- IP5X: The product is dust protected.
- 17- IP6X: The product is dust tight.
- 18- Immediately replace a cracked or broken safety glass and only use bosiocate parts of the manufacturer approved with a maximum temperature resistance of 300°C.
- 19- Protection class I: the product component has an earthing connection. The earth wire (yellow/green) has to be connected to the terminal marked with this symbol.
- 20- Protection class II: the product component is provided with double or reinforced insulation.
- 21- Protection class III: the product or component is only suitable for safety extra low voltage supply (<50Vac; <120Vdc).
- 22- Strip the wire as indicated on the icon.
- 23- The earthing wire always has to be longer than the brown live (L) and blue neutral (N) wire.
- 24- The use of the supplied heat-resistant sleeving is required over the unstripped wire lengths.
- 25- Connection of the earthing wire to the earthing directly to the electrical mains supply.
- 26- X-connection: in case of damage to the wire, it has to be replaced by a wire of the same type.
  Y-connection: in case of damage to the wire, it has to be replaced only by the manufacturer, distributor or by an expert, to avoid risks.
  Z-connection: The external flexible cable or cord of this luminaire cannot be replaced. If the cord is damaged, the luminaire shall be destroyed.
- 27- MAX ... W: only use bulbs suitable for this product and keep within the maximum specified wattage.
- 28- The product is only suitable for indoor use.
- 29- The product is only suitable for CFL-i - or LED-bulbs (e.g. E14, E27, Gu10, Gx53, ...).
- 30- The product is not suitable for CFL-i - or LED-bulbs (e.g. E14, E27, Gu10, Gx53, ...).
- 31- Only a bulb with a diameter of 60 mm can be used. A bulb with a 45 mm diameter must not be used for this product.
- 32- Only use a globe bulb that has the size of the indicated diameter. Never use a standard bulb instead.
- 33- The product is only suitable for candle shaped bulbs.
- 34- The product is only suitable for a bulb with built-in safety or a low pressure bulb. An extra safety glass is not necessary.
- 35- Capsule and linear halogen bulbs may not be touched by bare hands.
- 36- The product is equipped with a fuse. If the product is out of order after bulb replacement, the internal fuse has to be replaced.This must be done by a qualified electrician if contact with mains voltage is involved.
- 37- MAX ... W: Replace the bulb with the supplied bulb(s) only (not included) dimmer connected to the electrical installation of the home. For reference please visit "www.philips.com". Consult a qualified electrician for choosing the suitable dimmer type.
- 38- The product is not dimmable.
- The product is dimmable with the supplied dimmer ONLY. Do not connect to an additional dimmer.
- The product is working with a safety transformer. Replace a broken transformer only with a transformer with identical technical specifications. Consult a qualified electrician or your retail outlet.
- 41- Product for enquiry
- 42- Product with time and light setting options. Minimum and maximum is indicated on the icon.
- 43- The product can be mounted up to a maximum height of m.
- 44- For reliable operation, you have to mount the product on the specified height as indicated on the icon. The maximum and minimum reach of the detector is also indicated.
- 45- The standard active range of vision of the detector covers the given degrees indicated on the icon.
- 46- This product must be mounted horizontally. For longer life, the bulb should not be at an angle greater than 4 degrees.
- 47- Ensure not to drill through electrical wires or water pipes when mounting on a ceiling during installation!
- 48- If the product is mounted onto a ceiling-box or wall-box, it is obliged to cover the box with a kit first. (e.g. The Netherlands)
- 49- Electrical wires can be clamped or twisted between the product and the mounting surface.
- 50- The shape of this product may get hot.
- 51- This product is not suitable for children under 7 years.
- 52- The product is only suitable for persons above 7 years.
- 53- Mount the product at least 2m above the floor. (X: for children, X: for adults).
- 54- The product is only settable during installation by means of a tool.
- 55- Caution: Risk of electric shock! The light source contained in this luminaire shall only be replaced by the manufacturer or his service agent or a similar qualified person.
- 56- The light source contained in this luminaire shall only be replaced by the manufacturer or his service agent or a similar qualified person.
- 57- The light source of this luminaire is not replaceable; when the light source reaches its end of life the whole luminaire shall be replaced.

Alterations in design and technical specifications reserved.

ES - INSTRUCCIONES DE SEGURIDAD

Este manual es de tipo genérico, es decir, que no se ajusta a ningún producto en concreto. Por lo tanto, algunas de las características que aparecen en este manual no se aplicarán a su producto. Consulte el manual A para obtener información sobre las características que sí se aplican a su producto.

- Lea, siga, conserve y utilice la instalación, el uso y el funcionamiento del producto. Siga estas instrucciones con atención y conserve el manual para futuras consultas.
- Antes de llevar a cabo la instalación, el mantenimiento o la reparación, siempre apague la corriente.
- Antes de elegir el elemento de fijación adecuado para una sujeción segura del producto, siempre consulte a un profesional. Tenga en cuenta el peso del producto y el material de la superficie de montaje.
- En caso de duda, consulte a un electricista cualificado o autorizado o bien, acuda a su establecimiento habitual. Asegúrese de que el producto se instale siempre de acuerdo con las normas pertinentes. Algunas normas indican que los productos eléctricos deben instalarlos únicamente un electricista autorizado (p. ej. Parte P para el Reino Unido, AS/NZS3000 IN para AUSTRALIA (NUEVA ZELANDA)).
- Siempre apriete firmemente los tornillos del terminal, especialmente los elementos de fijación para el cableado de baja tensión (12V) y el cableado de la red eléctrica. Las conexiones sueltas pueden provocar un incendio o un cortocircuito. Tire suavemente de cada cable para asegurarse de que está bien sujeto.
- Limpie el producto únicamente con un paño seco, no utilice productos abrasivos ni disolventes. Evite que todas las partes eléctricas entren en contacto con líquidos.
- Instale las lámparas de pared fuera del alcance de los niños.
- Si el producto está montado en una superficie metálica, esta superficie debe estar conectada a la toma de tierra de protección de la instalación de acuerdo con las normas pertinentes.
- Siempre tenga en cuenta todas las características del producto. Verifique las fechas en la etiqueta de identificación del producto y los iconos que aparecen en la parte A de estas instrucciones de seguridad.
- Si la cubierta translúcida está agrietada o rota, sustituya inmediatamente la cubierta por otra nueva. Utilice únicamente piezas aprobadas por el fabricante.
- Se recomienda utilizar únicamente bombillas de la marca "Philips".
- Mantenga los materiales de embalaje (por ejemplo, bolsas de plástico) fuera del alcance de los niños.
- Los productos eléctricos que no se utilicen o que se instalen de forma incorrecta o con materiales o accesorios de baja calidad no deben aceptarse y devolverse. Si no es posible evitar esto, el producto está sujeto a un producto significa que el producto está cubierto por la Directiva Europea 2012/19/EU.
- UE Infórmese sobre el sistema de recogida selectiva de productos eléctricos y electrónicos. Actúe de acuerdo con las normas locales y no deseche el producto usado junto con la basura doméstica habitual. La correcta eliminación del producto usado ayuda a evitar posibles consecuencias negativas para el medio ambiente y la salud humana.
- **ATENCIÓN: Abajo encontrará todas las explicaciones con referencia numérica a los iconos respectivos que aparecen en estas instrucciones de seguridad:**
- 01- El producto es apto únicamente para interiores (IP20 mínimo).
- 02- El producto no es apto para instalarse en cuartos de baño, en la zona especificada.
- 03- El producto es apto para montarse en superficies normalmente inflamables.
- 04- El producto no es apto para montarse directamente en superficies normalmente inflamables.
- 05- El producto no es apto para cubrirse con material aislante térmico.
- 06- El producto es apto únicamente para montarse en el techo.
- 07- El producto es apto únicamente para montarse en la pared.
- 08- Instale el producto a la altura especificada sobre el suelo.
- 09- Tenga siempre en cuenta la distancia mínima, como se muestra en el icono, entre la lámpara y el objeto iluminado.
- 10- IP11: El producto está protegido contra el goteo de agua.
- 11- IPX3: El producto puede exponerse a gotas que caen de forma aleatoria con un ángulo máximo de 60° (con respecto al eje vertical).
- 12- IPX4: El producto es a prueba de salpicaduras. Puede exponerse a salpicaduras de agua que provengan de cualquier dirección.
- 13- IPX5: El producto está protegido contra chorros de agua.
- 14- IPX7: El producto puede instalarse en el suelo.
- 15- IPX8: El producto está protegido contra la inmersión hasta la profundidad indicada.
- 16- IP5X: El producto está protegido contra el polvo.
- 17- IP6X: El producto es hermético al polvo.
- 18- Sustituya inmediatamente el cristal roto o agrietado y utilice únicamente piezas de bosiocate aprobadas por el fabricante con una resistencia a la temperatura máxima de 300°C.
- 19- Clase de protección I: el componente del producto tiene una conexión a tierra. El cable de tierra (amarillo/verde) debe conectarse al terminal marcado con este símbolo.
- 20- Clase de protección II: el componente del producto está provisto de aislamiento doble o reforzado.
- 21- Clase de protección III: el producto o componente es apto únicamente para suministro de seguridad muy bajo (<50Vac; <120Vdc).
- 22- Pelar el cable como se indica en el icono.
- 23- El cable de tierra siempre debe ser más largo que el cable marrón (L) vivo y el cable azul (N) neutro.
- 24- Es necesario utilizar la funda resistente al calor suministrada en las partes del cable sin pelar.
- 25- Conexión del cable de tierra directamente a la red eléctrica.
- 26- Conexión X: en caso de daños en el cable, este debe sustituirse por uno del mismo tipo.
  Conexión Y: en caso de daños en el cable, este debe sustituirse únicamente por el fabricante, el distribuidor o un experto, para evitar riesgos.
  Conexión Z: el cable flexible o el cable externo de esta luminaria no se puede sustituir. Si el cable está dañado, la luminaria debe desecharse.
- 27- MAX ... W: utilice únicamente bombillas adecuadas para este producto y no supere el vatiaje máximo especificado.
- 28- El producto es apto únicamente para interiores.
- 29- El producto es apto únicamente para CFL-i o LED-bulbs (p. ej. E14, E27, Gu10, Gx53, ...).
- 30- El producto no es apto para CFL-i o LED-bulbs (p. ej. E14, E27, Gu10, Gx53, ...).
- 31- Solo puede usarse una bombilla de 60 mm de diámetro. No debe usarse con este producto una bombilla de 45 mm de diámetro.
- 32- Utilice únicamente una bombilla esférica del tamaño indicado. No utilice una bombilla estándar.
- 33- El producto es apto únicamente para bombillas en forma de vela.
- 34- El producto es apto únicamente para bombillas con seguridad incorporada o de baja presión. No es necesario un cristal de seguridad adicional.
- 35- Las bombillas de cápsula y halógeno lineales no deben tocarse con las manos desnudas.
- 36- El producto incorpora un fusible. Si el producto no funciona después de cambiar la bombilla, el fusible interno debe sustituirse. Si está implicada la red eléctrica, esta operación debe realizarla un electricista cualificado.
- 37- MAX ... W: sustituya la bombilla por la bombilla suministrada (no incluida) únicamente por un dimmer conectado a la instalación eléctrica de su vivienda. Para más información, visite "www.philips.com". Consulte a un electricista cualificado para elegir el dimmer adecuado.
- 38- El producto no es dimmerizable.
- El producto es dimmerizable SOLO con el dimmer suministrado. No conecte a un dimmer adicional.
- El producto funciona con un transformador de seguridad. Sustituya el transformador roto únicamente por un transformador con características técnicas idénticas. Consulte a un electricista cualificado o su establecimiento habitual.
- 41- Producto de consulta
- 42- Producto con opciones de ajuste de tiempo y luz. El mínimo y el máximo se indican en el icono.
- 43- El producto puede montarse a una altura máxima de m.
- 44- Para un funcionamiento fiable, el producto debe montarse a la altura especificada en el icono. El alcance máximo y mínimo del detector también se indican.
- 45- El ángulo de visión activo estándar del detector cubre los grados indicados en el icono.
- 46- El producto debe montarse en horizontal. Para una vida más larga, la bombilla no debe estar inclinada más de 4 grados.
- 47- Asegúrese de no taladrar cables eléctricos o tuberías de agua al montar el techo durante la instalación.
- 48- Si el producto se monta en una caja de techo o de pared, es obligatorio cubrir la caja con un kit. (p. ej. Países Bajos)
- 49- Los cables eléctricos pueden quedar sujetos o retorcidos entre el producto y la superficie de montaje.
- 50- La forma de este producto puede calentarse.
- 51- Este producto no es apto para niños de menos de 7 años.
- 52- El producto es apto únicamente para personas de más de 7 años.
- 53- Instale el producto a una altura mínima de 2 m del suelo. (X: niños, X: adultos).
- 54- El producto solo puede ajustarse durante la instalación con una herramienta.
- 55- Precaución: Riesgo de electrocución! La fuente de luz de esta luminaria solo puede sustituirla el fabricante o su agente de servicio o un profesional cualificado.
- 56- La fuente de luz de esta luminaria solo puede sustituirla el fabricante o su agente de servicio o un profesional cualificado.
- 57- La fuente de luz de esta luminaria no puede sustituirse; cuando la fuente de luz llegue al final de su vida útil, toda la luminaria debe sustituirse.

Nos reservamos el derecho a realizar modificaciones en el diseño y las características técnicas.

PT - INSTRUÇÕES DE SEGURANÇA

Este manual é de tipo genérico, ou seja, não se aplica a nenhum produto específico. Por isso, algumas das características que aparecem neste manual não se aplicarão ao seu produto. Consulte o manual A para obter informações sobre as características que se aplicam ao seu produto.

- Leia, siga, guarde e utilize a instalação, a utilização e o funcionamento do produto. Siga estas instruções cuidadosamente e guarde-as para futuras consultas.
- Desligue a corrente antes de qualquer intervenção de instalação, manutenção ou reparação.
- Consulte um profissional antes de escolher o fixador adequado para uma fixação segura do produto. Tenha em conta o peso do produto e o material da superfície de montagem.
- Em caso de dúvida, consulte um electricista qualificado ou autorizado ou o seu ponto de venda habitual. Certifique-se de que o produto é instalado de acordo com as normas pertinentes. Algumas normas indicam que os produtos eléctricos devem ser instalados apenas por um electricista autorizado (p. ex. Parte P para o Reino Unido, AS/NZS3000 IN para AUSTRÁLIA (NOVA ZELÂNDIA)).
- Aperte sempre os parafusos do terminal, especialmente os elementos de fixação para a cablagem de baixa tensão (12V) e a cablagem da rede eléctrica. Ligações soltas podem provocar um incêndio ou um curto-circuito. Puxe ligeiramente cada cabo para assegurar que está bem fixo.
- Limpe o produto apenas com um pano seco, não utilize abrasivos ou solventes. Evite que todas as partes eléctricas entrem em contacto com líquidos.
- Instale os candeeiros de parede fora do alcance das crianças.
- Se o produto estiver montado numa superfície metálica, esta superfície deve estar ligada à terra de protecção da instalação de acordo com as normas pertinentes.
- Tenha sempre em conta todas as características do produto. Verifique as datas na etiqueta de identificação do produto e os ícones que aparecem na parte A das presentes instruções de segurança.
- Substitua imediatamente a cobertura translúcida fendida ou partida e utilize apenas peças aprovadas pelo fabricante.
- Recomenda-se a utilização apenas de lâmpadas da marca "Philips".
- Mantenha os materiais de embalagem (por exemplo, sacos de plástico) fora do alcance das crianças.
- Os produtos eléctricos que não sejam utilizados ou instalados de acordo ou com materiais ou acessórios de qualidade inferior devem ser recusados e devolvidos. Quando isto não for possível, o produto está sujeito a um produto significa que o produto está coberto pela Directiva Europeia 2012/19/EU.
- UE Informe-se sobre o sistema de recolha selectiva de produtos eléctricos e electrónicos. Proceda de acordo com as normas locais e não deite o seu produto antigo no lixo doméstico habitual. A eliminação correcta do seu produto ajuda a evitar potenciais consequências negativas para o ambiente e a saúde humana.
- **ATENÇÃO: Abaixo encontra todas as explicações com referência numérica aos ícones respectivos que aparecem nestas instruções de segurança:**
- 01- O produto é apto apenas para interiores (IP20 mínimo).
- 02- O produto não é apto para instalar em casas de banho, certamente não na zona especificada.
- 03- O produto é apto para montar em superfícies normalmente inflamáveis.
- 04- O produto não é apto para montar directamente em superfícies normalmente inflamáveis.
- 05- O produto não é apto para cobrir com material isolante térmico.
- 06- O produto é apto apenas para montar no tecto.
- 07- O produto é apto apenas para montar na parede.
- 08- Instale o produto a uma altura específica acima do chão.
- 09- Tenha sempre em consideração a distância mínima, como indicado no ícone, entre a lâmpada e o objeto iluminado.
- 10- IP11: O produto está protegido contra o gotejamento.
- 11- IPX3: O produto pode ser exposto a gotas que caem de forma aleatória com um ângulo máximo de 60° (a partir do eixo vertical).
- 12- IPX4: O produto é à prova de salpicos. Pode ser exposto a salpicos de água provenientes de qualquer direção.
- 13- IPX5: O produto está protegido contra jatos de água.
- 14- IPX7: O produto pode ser instalado no solo.
- 15- IPX8: O produto está protegido contra a imersão até a profundidade indicada.
- 16- IP5X: O produto está protegido contra o pó.
- 17- IP6X: O produto é hermético ao pó.
- 18- Substitua imediatamente o vidro partido ou quebrado e utilize apenas bosiocate aprovados pelo fabricante com uma resistência à temperatura máxima de 300°C.
- 19- Classe de protecção I: o componente do produto tem uma ligação à terra. O fio de terra (amarelo/verde) deve ser ligado ao terminal marcado com este símbolo.
- 20- Classe de protecção II: o componente do produto está provido de isolamento duplo ou reforçado.
- 21- Classe de protecção III: o produto ou componente só é apto para fornecimento de segurança muito baixo (<50Vac; <120Vdc).
- 22- Retire a capa do fio conforme indicado no ícone.
- 23- O fio de terra deve sempre ser mais comprido do que o fio castanho vivo (L) e o fio azul neutro (N).
- 24- É necessário utilizar a manga resistente ao calor fornecida nas partes do fio não descapadas.
- 25- Ligação do fio de terra à rede eléctrica.
- 26- Ligação X: em caso de danos no fio, este deve ser substituído por um fio do mesmo tipo.
  Ligação Y: em caso de danos no fio, este deve ser substituído apenas pelo fabricante, pelo distribuidor ou por um perito, para evitar riscos.
  Ligação Z: o cabo flexível ou o cabo externo deste candeeiro não pode ser substituído. Se o cabo estiver danificado, o candeeiro deverá ser destruído.
- 27- MAX ... W: apenas lâmpadas adequadas a este produto e não ultrapasse a potência máxima especificada.
- 28- O produto é apto apenas para interiores.
- 29- O produto é apto apenas para CFL-i - ou LED-bulbs (p. ex. E14, E27, Gu10, Gx53, ...).
- 30- O produto não é apto para CFL-i - ou LED-bulbs (p. ex. E14, E27, Gu10, Gx53, ...).
- 31- Apenas pode ser usada uma lâmpada de 60 mm de diâmetro. Não deve usar neste produto uma lâmpada de 45 mm de diâmetro.
- 32- Apenas pode usar uma lâmpada esférica do tamanho indicado. Nunca deve usar uma lâmpada normal.
- 33- O produto é apto apenas para lâmpadas em forma de vela.
- 34- O produto é apto apenas para lâmpadas com segurança incorporada ou de baixa pressão. Não é necessário um vidro de segurança adicional.
- 35- As lâmpadas de cápsula e halogénicas lineares não devem ser tocadas com as mãos nuas.
- 36- O produto inclui um fusível. Se o produto não funcionar após a substituição da lâmpada, o fusível interno deverá ser substituído. Se estiver envolvida a rede eléctrica, esta operação deverá ser realizada por um electricista qualificado.
- 37- MAX ... W: substitua a lâmpada apenas pela lâmpada fornecida (não incluída) apenas por um dimmer ligado à instalação eléctrica da sua casa. Para mais informações, consulte "www.philips.com". Consulte um electricista qualificado para escolher o dimmer adequado.
- 38- O produto não é dimmerizável.
- O produto é dimmerizável APENAS com o dimmer fornecido. Não ligue a um dimmer adicional.
- O produto funciona com um transformador de segurança. Substitua um transformador avariado apenas por um transformador com características técnicas idênticas. Consulte um electricista qualificado ou o seu ponto de venda habitual.
- 41- Produto de consulta
- 42- Produto com opções de ajuste de tempo e luz. O mínimo e o máximo são indicados no ícone.
- 43- O produto pode ser montado a uma altura máxima de m.
- 44- Para um funcionamento fiável, o produto deve ser montado a uma altura específica, conforme indicado no ícone. O alcance máximo e mínimo do detector também são indicados.
- 45- O ângulo de visão activo padrão do detector cobre os graus indicados no ícone.
- 46- O produto deve ser montado na horizontal. Para uma vida mais longa, a lâmpada não deve estar inclinada mais de 4 graus.
- 47- Certifique-se de que não perfura fios eléctricos ou canalizações de água ao montar o tecto durante a instalação!
- 48- Se o produto estiver montado numa caixa de tecto ou de parede, é obrigatório cobrir a caixa com um kit. (p. ex. Países Baixos)
- 49- Os fios eléctricos podem ficar presos ou torcidos entre o produto e a superfície de montagem.
- 50- A forma deste produto pode aquecer.
- 51- Este produto não é apto para crianças com idade inferior a 7 anos.
- 52- O produto é apto apenas para pessoas com idade superior a 7 anos.
- 53- Instale o produto a uma altura mínima de 2 m do chão. (X: crianças, X: adultos).
- 54- O produto só pode ser ajustado durante a instalação com uma ferramenta.
- 55- Cuidado: Risco de choque eléctrico! A fonte de luz contida nesta luminária só pode ser substituída pelo fabricante ou pelo seu agente de assistência ou por um profissional qualificado.
- 56- A fonte de luz contida nesta luminária só pode ser substituída pelo fabricante ou pelo seu agente de assistência ou por um profissional qualificado.
- 57- A fonte de luz deste candeeiro não é substituível; quando a fonte de luz chegar ao fim de vida útil, todo o candeeiro deverá ser substituído.

Reservamo-nos o direito a alterações no design e nas características técnicas.

TR - TALİMATLAR

Bu kılavuz genel bir nitelikte olup, belirli bir ürüne ait olmadığı anlamına gelir. Bu nedenle, bu kılavuzdaki bazı özellikler satın aldığınız ürünü ilgilendirmeyebilir. Satın aldığınız ürünü ilgilendiren özellikler konusunda lütfen ek Kılavuz A'ya bakınız.

- Ürünü okuyun, izleyin, saklayın ve kullanın. Bu talimatlara dikkatle uyun ve ileride kullanmak üzere saklayın.
- Montaj, bakım veya onarım faaliyetlerinden önce daima elektriğin kesilmesini sağlayın.
- Ürünün güvenli montajı için uygun bir montaj elemanı seçmeyi daima bir uzmanla istişare edin. Ürünün ağırlığını ve montaj yüzeyinin malzemesini dikkate alın.
- Şüpheniz varsa, bir elektrik uzmanına veya yetkili bir elektrikçiye danışın veya satıcınıza gidin. Ürünün daima ilgili yönetmeliklere uygun olarak montajı yapılmalıdır. Bazı yönetmelikler, elektrik ürünlerinin ancak yetkili bir elektrikçi tarafından montajı yapılmalıdır (ör. İngiltere'de Parte P, Avustralya (Yeni Zelanda) AS/NZS3000 IN).
- Vidalı terminal bağlantılarını, özellikle alçak gerilim (12V) kablolarına ve şebeke kablolarına ait olanlar dahil olmak üzere, sıkıca bağlayın. Gevşek bağlantılar yangına veya kısa devre yapabilir. Bağlantıyı sağlamlaştırmak amacıyla kablolarda hafif çekme yapın.
- Ürünü yalnızca kuru bir bezle temizleyin, aşındırıcı maddeler veya çözücüler kullanmayın. Tüm elektrik parçalarına sıvıdan uzak tutun.
- Duvar lambalarını çocukların ulaşamayacağı yerlere yerleştirin.
- Ürün metal bir yüzeye monte edilmişse, bu yüzeyin montaj talimatlarına uygun olarak koruma iletkeni ile bağlanmalıdır.
- Daima ürünün ilgili tüm özellikleri dikkate alınmalıdır. Ürün etiketindeki tarihleri ve bu talimatlar kısmı A'daki simgeleri kontrol edin.
- Çatlak veya kırılmış şeffaf kapağı hemen yenisiyle değiştirin ve yalnızca onaylanmış parçaları kullanın.
- Philips markalı ürünlerin kullanımı tavsiye edilir.
- Ambalaj malzemelerini (ör. plastik torbalar) çocukların ulaşamayacağı yerlerde saklayın.
- Yüksek kalite malzeme veya aksesuarlarla kullanılmayan veya yanlış kullanılan elektrikli ürünler kabul edilmemelidir. Bu mümkün olmadığı durumlarda ürün, Avrupa Birliği'nin 2012/19/EU sayılı Direktifi'ne tabidir.
- AB Yerel makamlarınızın elektrikli ve elektronik ürünlerin ayrı toplanmasıyla ilgili yerel sistemi hakkında bilgi almanızı sağlayın. Yerel kurallara uyun ve eski ürünü evsel atıklarınızla birlikte atmayın. Eski ürünün doğru şekilde bertaraf edilmesi, çevre ve insan sağlığı üzerindeki olası olumsuz etkilerin önlenmesine yardımcı olur.
- **DİKKAT: Aşağıda, bu talimatlar kısmı ile ilgili olan simgelerin numaralarına ait tüm açıklamalar yer almaktadır:**
- 01- Ürün yalnızca iç mekan kullanımına uygun (IP20 minimum).
- 02- Ürün banyo kullanımına uygun değildir, belirtilen bölgede kesinlikle olmamalıdır.
- 03- Ürün normal yanıcı yüzeylere monte edilebilir.
- 04- Ürün normal yanıcı yüzeylere doğrudan monte edilmeye uygun değildir.
- 05- Ürün termal yalıtım malzemesi ile kaplanmaya uygun değildir.
- 06- Ürün yalnızca tavana montaj yapılmasına uygun olup, duvar montajı yapılmasına uygun değildir.
- 07- Ürün yalnızca duvar montajı yapılmasına uygun olup, tavan montajı yapılmasına uygun değildir.
- 08- Ürünü belirtilen yükseklik ile zemin arasına montaj yapın.
- 09- Daima, simgeyi gösterildiği gibi lamba ile aydınlatılan nesne arasındaki minimum mesafeyi dikkate alın.
- 10- IP11: Ürün damlamaya karşı korumalıdır.
- 11- IPX3: Ürün, maksimum 60° (dikey eksenden) açı altında rastgele düşen damlalara maruz kalabilir.
- 12- IPX4: Ürün sıçramaya karşı dayanıklıdır. Ürün, herhangi bir yönden gelen sıçramalara maruz kalabilir.
- 13- IPX5: Ürün, su jetlerine karşı korumalıdır.
- 14- IPX7: Ürün, toprak altına montaj yapılabilir.
- 15- IPX8: Ürün belirtilen derinlik altına kadar suya dayanıklıdır.
- 16- IP5X: Ürün toz geçirmez.
- 17- IP6X: Ürün toz geçirmez.
- 18- Çatlak veya kırılmış camı hemen yenisiyle değiştirin ve yalnızca 300°C'ye kadar dayanıklı olan bosiocate parçaları kullanın.
- 19- Koruma sınıfı I: ürün bileşeninde toprak bağlantısı vardır. Toprak kablosu (sarı/yeşil) bu sembolle işaretlenmiş olan terminale bağlanmalıdır.
- 20- Koruma sınıfı II: ürün bileşeni çift veya takviyeli yalıtımla donatılmıştır.
- 21- Koruma sınıfı III: ürün veya bileşen yalnızca çok düşük güvenlik gerilimi (<50Vac; <120Vdc) ile çalışmaya uygun olabilir.
- 22- Kablo kılıfını, ürün etiketinde gösterildiği gibi çıkarın.
- 23- Toprak kablosu, daima kahverengi canlı (L) ve mavi nötr (N) kablosundan daha uzun olmalıdır.
- 24- Kablo kılıfı çıkarılmamış kablo uzunluklarının üzerinde, sağlanan ısıya dayanıklı kılıfın kullanılmasına gerek vardır.
- 25- Toprak kablosunun, elektrik şebekesinin doğrudan toprak bağlantısına bağlanması.
- 26- X-bağlantısı: kablo hasar görmüşse, aynı tipte bir kablo ile yenisi ile değiştirilmelidir.
  Y-bağlantısı: kablo hasar görmüşse, yalnızca üreticisi, dağıtıcısı veya bir uzman tarafından, riskleri önlemek amacıyla yenisi ile değiştirilmelidir.
  Z-bağlantısı: Bu armatürün harici esnek kablosu veya kordonu yenilenemez. Kablo hasar görmüşse, armatür imha edilmelidir.
- 27- MAX ... W: yalnızca bu ürün ile uyumlu ampuller kullanın ve belirtilen maksimum watajı aşmayın.
- 28- Ürün yalnızca iç mekan kullanımına uygundur.
- 29- Ürün yalnızca CFL-i - veya LED-bulbs (ör. E14, E27, Gu10, Gx53, ...) ile uyumludur.
- 30- Ürün CFL-i - veya LED-bulbs (ör. E14, E27, Gu10, Gx53, ...) ile uyumlu değildir.
- 31- Yalnızca 60 mm çapındaki ampul kullanılabilir. Bu ürünle 45 mm çapındaki ampul kullanılmamalıdır.
- 32- Yalnızca belirtilen boyutta ampul kullanın. Asla standart ampul kullanmayın.
- 33- Ürün yalnızca mum şeklindeki ampuller ile uyumludur.
- 34- Ürün yalnızca emniyetli veya düşük basınçlı ampul ile uyumludur. Ayrıca bir emniyet camına gerek yoktur.
- 35- Kapsül ve lineer halojen ampullere çıplak ellerle dokunmayın.
- 36- Ürün, bir sigortayı kullanır. Ampul yenilendikten sonra ürün çalışmıyorsa, dahili sigortanın yenilenmesi gerekir. Şebeke gerilimi ile temas ettiğinde bu işlem yetkili bir elektrikçi tarafından yapılmalıdır.
- 37- MAX ... W: Ampulü yalnızca evinizdeki elektrik tesisatına bağlı olan (dahil olmayan) dimmer ile birlikte sağlanan ampul(ler) ile değiştirin. Referans olarak "www.philips.com" adresini ziyaret edin. Uygun dimmer'ı seçmek için yetkili bir elektrikçiye danışın.
- 38- Ürün dimmerlenemez.
- Ürün YALNIZCA sağlanan dimmer ile dimmerlenebilir. Ek bir dimmer'a bağlamayın.
- Ürün, bir güvenlik transformatörü ile çalışır. Bozulmuş olan transformatörü yalnızca aynı teknik özellikleri olan bir transformatörle değiştirin. Yetkili bir elektrikçiye veya satıcınıza gidin.
- 41- Sorgulanacak ürün
- 42- Zaman ve ışık ayarlarına sahip ürün. Minimum ve maksimum simgeyi gösterir.
- 43- Ürün, m'ye kadar bir montaj yüksekliğine sahiptir.
- 44- Ürünün güvenilir bir biçimde çalışabilmesi için ürünü simgeyi gösterdiği yüksekliğe monte etmeniz gerekir. Dedektörün maksimum ve minimum menzili de gösterilmiştir.
- 45- Dedektörün standart aktif görüş alanı, simgeyi gösterdiği dereceleri kapsar.
- 46- Ürün yatay olarak monte edilmelidir. Daha uzun ömür için ampul, 4 derecelik bir açıyla olmamalıdır.
- 47- Montaj sırasında, tavanda elektrik kablosu veya boru olmadığından emin olun!
- 48- Ürün, bir tavan veya duvar kutusuna montaj yapılmışsa, kutuyu bir kit ile kapatmak zorunludur. (ör. Hollanda)
- 49- Elektrik kablosu, ürün ile montaj yüzeyi arasına sıkıştırılabilir veya bükülebilir.
- 50- Ürünün şekli ısınabilir.
- 51- Ürün 7 yaşın altındaki çocuklar için uygun değildir.
- 52- Ürün yalnızca 7 yaşın üstündeki kişiler için uygun olabilir.
- 53- Ürünü yerden en az 2 m yükseğe monte edin. (X: çocuklar, X: yetişkinler).
- 54- Ürün yalnızca montaj sırasında bir aletle ayarlanabilir.
- 55- Dikkat: Elektrik çarpma tehlikesi! Bu armatürde bulunan ışık kaynağı yalnızca üretici veya onun servis temsilcisi veya benzer nitelikteki bir uzman tarafından değiştirilebilir.
- 56- Bu armatürde bulunan ışık kaynağı yalnızca üretici veya onun servis temsilcisi veya benzer nitelikteki bir uzman tarafından değiştirilebilir.
- 57- Bu armatürün ışık kaynağı değiştirilemez; ışık kaynağı ömrünü tamamlarsa armatürün tamamı yenilenmelidir.

Tasarım ve teknik özellikler üzerinde değişiklik yapma hakkımız saklıdır.

RU - ИНСТРУКЦИИ ПО БЕЗОПАСНОСТИ

Данное руководство является общим, поэтому некоторые из описанных в нем параметров и характеристик могут не относиться к вашему изделию. Для ознакомления с параметрами, которые относятся к вашему изделию, см. дополнительное руководство A.

- Прочтите, выполняйте, сохраняйте и используйте инструкции по монтажу, эксплуатации и функционированию изделия. Внимательно следуйте этим инструкциям и сохраните их для последующего использования.
- Перед монтажом, обслуживанием или ремонтом всегда отключайте электропитание.
- Перед выбором подходящего крепежного элемента для надежной фиксации изделия всегда обращайтесь за консультацией к специалисту. Учитывайте вес изделия и материал монтажной поверхности.
- Если вы сомневаетесь, обратитесь к квалифицированному электрику или в магазин. Убедитесь, что изделие всегда монтируется в соответствии с соответствующими нормами. Согласно некоторым нормам, электрические приборы должны устанавливаться только лицензированными электриками (напр., Часть P для Великобритании, AS/NZS3000 IN для АВСТРАЛИИ (НОВАЯ ЗЕЛАНДИЯ)).
- Всегда плотно затягивайте винтовые клеммы, особенно крепежные элементы для проводки низкого напряжения (12V) и проводки сети. Ослабленные соединения могут вызвать пожар или короткое замыкание. Слегка потяните каждый провод, чтобы убедиться в надежности его крепления.
- Протирайте изделие только сухой тряпкой, не используйте абразивы или растворители. Не допускайте попадания жидкостей на электрические детали.
- Настенные светильники должны быть недоступны для детей.
- Если изделие смонтировано на металлической поверхности, эта поверхность должна быть заземлена в соответствии с соответствующими нормами.
- Всегда учитывайте все со

adéquate de votre produit permet de prolonger l'environnement et la santé.

ATTENTION : vous trouverez ci-dessous toutes les explications avec le numéro de référence de chaque icône et les dessins pour les différentes instructions de sécurité :

01- Produit dont uniquement être installé en intérieur.
02- Produit dont être installé dans une salle de bain, en particulier dans la zone mouillée.
03- Le produit dont être fixé sur une surface ininflammable.
04- Le produit ne doit pas être fixé sur une surface inflammable standard.
05- Le produit ne doit pas être recouvert avec un matériau de isolation thermique.
06- Le produit peut uniquement être fixé au plafond.
07- Le produit peut uniquement être fixé à un mur.
08- Le produit peut être installé sur un mur ou un plafond.
09- Le produit dont être correctement protégé contre les éléments, telle qu'indiquée sur l'icône, entre la lampe et l'objet à éclairer.
10- IPX1 : le produit est protégé contre les suintements d'eau.
11- IPX3 : le produit est protégé contre les projections d'eau (pluie) jusqu'à un angle inférieur à 60° de la verticale.
12- IPX4 : l'appareil est résistant aux projections : il peut être exposé aux projections d'eau provenant de toutes les directions (360°).
13- IPX5 : le produit est protégé contre les jets d'eau.
14- IPX7 : le produit peut être immergé dans l'eau.
15- IPX8 : le produit est protégé contre l'immersion jusqu'à la profondeur indiquée.
16- Le produit dont être correctement ventilé.
17- IP6X : le produit est étanche aux poussières.
18- Tout verre de sécurité fissuré ou cassé doit immédiatement être remplacé. Utilisez exclusivement des pièces en verre bombé/clair de mêmes dimensions, d'une épaisseur minimale de 3 mm.
19- Protection de classe I : le produit ou composant est équipé d'une prise de terre. Le câble de terre (jaune/vert) doit être connecté à la borne marquée du symbole ⏚.
20- Le produit ne doit pas être connecté à un composant dont le câble de terre est endommagé ou défectueux.
21- Protection de classe III : le produit ou composant n'est utilisable qu'avec une alimentation à très basse tension de sécurité (TBTS) et ne saurait générer aucun courant alternatif ; < 120 V en courant continu.
22- Dévoulez le câble, comme indiqué sur le schéma.
23- Le câble de terre doit toujours être plus long que le câble de phase marron (L) et le câble neutre bleu (N).
24- Le câble de terre doit être étiqueté à la chaleur fournie et resistant aux les portions de câble non dévoulées.
25- Le produit peut uniquement être branché directement sur le secteur.
26- Connexion X : si le câble est endommagé, il doit être remplacé par un câble de même type.
Connexion Y : si le câble est endommagé, il ne peut être remplacé que par le fabricant, par le distributeur ou par un expert, afin d'éviter tout danger.
Connexion Z : le câble ou cordon flexible externe de ce luminaire ne peut être remplacé. Si le cordon est endommagé, le produit doit être mis au rebut.
27- MAX… : W : utilisez uniquement les ampoules adaptées à ce produit et assurez-vous qu'elles ne dépassent pas la puissance maximale indiquée.
28- Le produit dont uniquement être utilisé avec des ampoules à intensité variable.
29- Le produit fonctionne uniquement avec les ampoules CFL-I ou LED (E14, E27, Gu10, GX53, etc).
30- Le produit n'est pas adapté aux ampoules CFL-I ou LED (E14, E27, Gu10, GX53, etc).
31- Seules les ampoules à incandescence ou halogènes (G9) peuvent être utilisées. Le produit ne doit pas être utilisé avec une ampoule de 45 mm de diamètre.
32- Le produit ne doit pas être utilisé avec une ampoule de 45 mm de diamètre.
33- Ce produit est uniquement destiné aux ampoules en forme de flamme.
34- Ce produit est uniquement destiné aux ampoules avec des ampoules dont la température basse pression. Il n'est pas nécessaire d'utiliser un verre de sécurité supplémentaire.
35- Les ampoules halogènes capsulées doivent toujours être utilisées avec un verre de sécurité.
36- Ce produit est doté d'un fusible. Si le produit est hors d'usage après un changement d'ampoule, vérifiez le fusible. Si le fusible est grillé, remplacez-le par un fusible de même ampérage et de même type. Si le produit ne fonctionne toujours pas, contactez votre revendeur.
37- L'intérieur luminaire de ce produit est réglable avec le variateur fourni ou à l'aide d'un variateur connecté à l'installation électrique du bâtiment (non fourni). Pour plus d'informations, rendez-vous sur « www.philips.com ». Consultez un électricien qualifié pour choisir le type de variateur adapté.
38- L'intérieur luminaire du produit n'est pas variable.
39- Le produit dont uniquement être utilisé avec le variateur fourni UNIQUEMENT. Ne connectez pas de variateur supplémentaire.
40- Le produit fonctionne avec un transformateur de sécurité. Ne remplacez un transformateur endommagé par un autre transformateur conforme aux mêmes spécifications techniques. Consultez un électricien qualifié en cas de doute.
41- Produit destiné aux environnements intérieurs secs.
42- Produit disposant d'options de réglage du temps et de l'éclairage. Les températures minimale et maximale du produit sont indiquées.
43- Le produit peut être installé à une hauteur maximale de 2 mètres.
44- Le produit dont être correctement rechargé, vous devez le faire à l'aide du matériel adéquat sur l'icône. Les portions non dévoulées du câble doivent toujours être protégées.
45- Le champ de vision actif standard du détecteur couvre l'angle indiqué sur l'icône.
46- Ce produit doit être installé à une hauteur de 1,2 mètre au dessus du sol. Le champ de l'ampoule ne doit pas dépasser 4 mètres.
47- Veillez à ne pas percer des câbles électriques ou tout autre objet se trouvant dans le mur ou le plafond lors de l'installation !
48- Ce produit dont être installé à un boîtier pour plafond ou un boîtier mural, vous devez d'abord placer un couvercle sur le boîtier (par ex. aux Pays-Bas).
49- Les câbles électriques ne doivent jamais être encastrés ou torsadés entre le produit et la surface de fixation !
50- Certaines parties de ce produit peuvent devenir chaudes.
51- Ce produit n'est pas adapté aux enfants de moins de 8 ans.
52- Le produit est utilisable uniquement par des personnes âgées de plus de 8 ans.
53- Le produit est uniquement destiné à un usage « grand public » (par des adultes).
54- Le produit est uniquement destiné à un usage « non grand public » (par des adultes).
55- Attention : risque d'électrocution! La source lumineuse contenue dans ce luminaire doit être uniquement remplacée par le fabricant, son service après-vente ou une autre personne disposant des qualifications appropriées.
56- La source lumineuse contenue dans ce luminaire doit être uniquement remplacée par le fabricant, son agent de maintenance ou une autre personne disposant des qualifications appropriées.
57- La source lumineuse de ce luminaire n'est pas remplaçable. Lorsque la source lumineuse arrive en fin de vie, tout le luminaire doit être remplacé.

Pour réserve de modification du design et des spécifications techniques.

EN 1.WARNING – Risk of strangulation. Loose cords and cables can present a strangulation risk to babies and children. **2.** ENSURE the cord is secured to the wall and check it regularly. Wrap up all slack cord between fastener and socket. **3.** ALWAYS ensure that babies and children, cots and playpens are kept out of reach of cords and cables, at least 1 meter / 3,5 feet away. **4.** Please mount wall lights out of children's reach. The manufacturer advises the correct use of lighting fittings! Therefore always follow these instruction to ensure correct and safe installation and functioning of the fitting and keep it for future reference.

ZH 1. 警告 – 窒息危险。松散的电源线和线缆可能对婴儿和儿童形成窒息危险。**2.** 确保电源线已牢固地固定在墙壁上，并定期进行检查。所有扣件和插座间松散的电源线必须包裹好。**3.** 务必确保婴儿和儿童、婴儿床和围栏不会接确电源线和线缆，至少距离 1 米远。**4.** 请将壁灯安装在儿童接确不到的地方。
制造商建议要正确使用照明装置！因此，请务必按照这些说明，以确保正确、安全地进行安装，并发挥装置的功能，同时请妥善保管以供日后参考。

ZH (T) 1. 警告 – 絞勒窒息風險。鬆脫的電線及纜線可能對嬰兒和孩童造成絞勒窒息風險。**2.** 請務必確保電線固定於牆上並定期檢查。請將扣件和插座間鬆散的電線纏好收攏並妥善包覆。**3.** 務必確保嬰兒和孩童、搖床和護欄均距離電線及纜線至少 1 公尺 之遠。**4.** 請將壁燈安裝於孩童無法觸及之處。
製造商建議務請正確使用照明燈座！請務必遵照這些指示操作，以確保正確、安全地安裝和操作燈座，並妥善保管以供日後參考。
