Vaya LineBar LED

Vaya LineBar LED

Vaya LineBar LED is an ultra slim LED profile which provides tremendous flexibility to integrate seamlessly with architectural structures. It brings urban landscapes to life with dynamic color-changing images - a property rarely possible with conventional lighting systems. Vaya LineBar also illuminates facades and intrinsic building details with vivid, color-changing light to accentuate building structures.

Benefits
• Innovative and compact
• Exceptional design freedom
• Easy to experience

Features
• Innovative and compact
• Supports dynamic image and text display patterns with up to 6.7 million (24bit) RGB colors
• Made with durable, high-brightness and energy-efficient components
• A specially designed built-in cover in its housing delivers better protection to the LEDs and minimizes the risk of ESDs
• Exceptional design freedom
• Miniaturized design gives fantastic flexibility to lighting designers for integration into confined spaces and the ability to highlight architectural details
• Seamless lighting effects
• Easy to experience
• Compatible with DMX control for RGB version and just switch on-off for mono versions

Application
• Façade lighting
• Accent lighting

Specifications

| Type	BCS503/506/509/512	Light source	16 / 32 / 48 / 64 SMD high bright LED

Vaya LineBar LED

Light color	RD / GN / BL / AM / CW / WW / RGB		Control interface	Mono: switch on/off
Beam angle	> 120º			RGB: DMX 512
Power requirement	24 V DC		Wiring	Flying wiring
Power consumption	Mono: 2.1, 4.2, 6.4, 8.5 W		Accessories	Mounting bracket
	RGB: 3.7, 7,0, 10.3, 13.7 W		Related products	24 V power supplier
Installation	Surface mounted			RDM / DMX data splitter
Materials	Housing: extrusion aluminum			DMX controller
	Cover: aluminum mix with plastics		Remark	Also deliverable with wiring and attached connectors for indoor use
Ambient temperature	-20 to +50ºC			(IP20), type BCX503/506/509/512

Versions

Product details

LED Linebar connectors for indoor

General Information	
Lamp family code	LED-HB
