

Cabana 2 – ultra-convenient

Cabana2 BY150P

Cabana 2 is a functional high-bay indoor luminaire for high-intensity discharge lamps. It is supplied with a reflector, which can be attached to the unit without screws by means of an ingenious bayonet construction. The innovative external beam regulator enables easy lamp adjustment (narrow or wide beam) at the installation site. The external connector means the electrical connection can be made without opening the unit. Two versions are available: the standard version for SON and HPI-P lamps, and a round version for CDM-TMW lamps.

Benefits

- Easy to install
- High optical efficiency

Features

- External beam regulator for easy on-site narrow/wide beam adjustment
- Bayonet construction for attaching the reflector to the housing
- External connector for quick, simple electrical connection without opening the unit

Application

- Industrial halls
- Warehouses
- DIY stores
