

Dynadimmer - different ways

Dynadimmer

Luminaire based, stand-alone controller for 1-10 V electronic driver. Suitable for outdoor applications like roads, streets, residential and area lighting 5-step dimming schedule is created in easy-to-use software, dimming schedule is downloaded in Dynadimmer via a Programmer or USB PC cable.

Benefits

- Maximize energy savings through 5-level dimming
- Stand-alone, no commissioning, no operational costs
- Reduced light nuisance

Features

- Easy-to-use software provides a forecast of energy savings
- Very small size – fits inside almost any luminaire
- Double isolated SELV version for LED luminaires

Application

- Each Dynadimmer can control a driver-lamp combination in a stand-alone manner
- Designed for use in road, street, residential and area lighting applications including parking lots, ports, train stations and industrial complexes
- The design of the Dynadimmer is optimized for mounting in a luminaire or gear tray
- The Philips Dynadimmer is designed and released to interact with Philips 1-10 V gear and is compatible with dimmable drivers with a standard 1-10 V interface
