

Enhancing your project's unique style

Slipover Bases

Hadco's line of slipover bases provides alternatives to other poles bases while still meeting your goal of urban beautification.

Benefits

- Decorative, yet durable

Features

- Fits poles ranging in diameter from 3" to 8" (sizes vary based on exact model)
- Made from Polytech custom blended polyethylene (SLBPT models)
- Made from 356 HM high-strength, low-copper, proprietary cast aluminum alloy (SLB models)

Application

- Bridges, Monuments, Facades
- Road and Street
- Urban
