

# Clean architectural design

## Alcyon LED Vertical

Alcyon LED Vertical is a single-optic LED platform designed with a balance of form, function and visual comfort. It's complete flexibility in lumen output and beam angles allow for optimal lighting designs including extremely tight accent applications. It's industry leading efficacy and candlepower levels offers customers a low energy consumption solution that provides maximum light output at minimum watts per square foot to meet the latest ASHRAE codes. For added flexibility, the interchangeable reflectors along with the widest range of accessories help designers customize the light output to create the perfect environment.

### Benefits

- Light quality consistency, specifically designed for retailers
- Market leading efficiency and "candlepower punch"
- Integrated "invisible" heat sink, designed with a passive cooling methodology

### Features

- Lumens: 600, 1000, 2000, and 3000
- 1000 lm 10° Narrow Spot delivers more than 24,000 CBCP for excellent punch
- Reflectors: Narrow Spot, Spot, Narrow Flood and Flood beams
- Trailing edge (ELV) dimming

### Application

- Fashion
- Food and Large Retailers
- Office
- Banks
- Hospitality
