

**Inspired by the classic curve, ArcForm's innovative design delivers exceptional performance and energy saving with its unmatched 3D batwing distribution.**

## **ArcForm**

ArcForm Recessed is a highly efficacious, fully luminous LED fixture with brilliant AccuRender 90 CRI color rendering. It delivers pure white light—free of glare, color shifts, hot spots or striations. ArcForm's innovative 3D symmetrical batwing lighting distribution delivers excellent performance on 10ft x 10ft on-center spacing allowing for fewer fixtures in a space and further reducing installation, maintenance, and watts per square foot.

### **Benefits**

- Exceptional performance used at 10ft x 10ft OC spacing versus typical recessed products requiring 6ft or 8ft spacing.
- State-of-the-art LED optical design.
- Unique three-dimensional batwing lighting distribution.
- Graceful aesthetic.
