

Candela – unprecedented design flexibility

Candela (CAND1-PC)

Truly versatile the Candela Luminaire with its' traditional style and European inspiration will set the tone and enhance any project. Attention to detail is perhaps the most important aspect of the Candela. From the European inspired nautical design to the wide range of optical systems available, to the wide assortment of complementary products that harmonize with this luminaire, no stone has been left unturned to give decision makers unprecedented flexibility and design options. The Candela is now available with an LED light engine that will provide better longevity and energy savings. The Candela is well suited for nautical environments, roadways, parks and other urban developments.
