

Cost effective with varied profiles and finishes

CareWell Bed Light

CareWell is a value oriented solution for resident apartments within assisted living facilities. The varied profiles and finishes of the fast-growth poplar wood shroud provide a wide range of styles that provide a residential feel. Dual lamp compartments deliver ambient and reading illumination while eliminating debilitating direct glare. CareWell is easy to install and maintain.

Benefits

- Easy three step installation
- Two profiles and three different finishes

Features

- Long life LEDs
- Minimum 80 CRI

Application

- Hospitals and Care Centers
