

CB100 - perfect for high pedestrian traffic and plant life applications

CB100 Step Light

The CB100 is a composite: low voltage step light suitable for many deck and traffic areas. It's available in both line voltage and low voltage source in a variety of wattages. Construction includes a die-cast aluminum back box with a horizontal louver faceplate made from injection molded RYTON® composite with frosted tempered glass and stainless steel screws.

Benefits

- Corrosion-resistant
- Prolonged component life

Features

- Low copper aluminum construction
- Louvered optical assembly
- Offers thermal protection device option

Application

- Landscape
- Walkway
