

ClearScape – bring your design to life

ClearScape Medium (CSFM)

The Gardco ClearScape LED luminaires feature an architecturally stylish design that will complement your application's visual landscape. Available in two sizes, ClearScape offers outstanding photometric performance, significant savings over HID, and is available with the latest in energy saving control options. Precision optics, shields, color filters, and field tunable white options allow you to customize your lighting solution and paint with light. Whether accentuating fine details, highlighting a monument or boldly drawing attention to an architectural facade, ClearScape is the right solution to bring definition to a space.
