

Form Ten – unparalleled performance, uncompromised durability

Form Ten Round Area CA

The Form Ten Round CA luminaire's low profile and cylindrical shape suggests uses where the lighting plan brings luminaires closer to eye level. Round luminaires accommodate all six Gardco optical systems and therefore direct a higher percentage of lumens onto desired areas than any other type of round luminaire. Housings are spun aluminum with a circumferential reveal and are sealed against penetration by insects and the elements with high compliance, memory retentive, extruded silicone gaskets. CA Luminaires are available up to 1000MH.

Benefits

- Enables wider pole spacings
- Improved lumen efficiency
- Enables reorientation in the field should requirements change
- Suitable for a variety of applications
- Ensures durable and lasting construction

Features

- Conical fan reflector
- Highly reflective material
- Offers a variety of optical distributions
- Rotatable optics
- Rugged construction

Form Ten Round Area CA

Application

- Parks and Plazas
- Road and Street
