

Architectural with a slim profile

Fusion III Recessed LED Emergency Unit

The Chloride Fusion III LED Emergency Unit is the latest expansion to Chloride's solid-state lighting family. A slim recessed ceiling profile combined with a variety of finishes, help the Fusion III to enhance any architectural space with no design compromises.

Benefits

- Aesthetically appealing and designed for architectural excellence
- Low profile is less obtrusive than traditional, making it more aesthetically appealing

Features

- Fully-gasketed and powder-painted die cast aluminum housing and cover
- Tamperproof hardware is available as an option
- Optional rectangular trip plate is available

Application

- Office
- Banks
- Hospitality
- Fashion
