

Architectural and energy efficient

PathMaster Mini LED Step Light

The Chloride PathMaster step-light is designed to support low-level illumination of stairwells, step landings, wheelchair ramps, exit corridors and other spaces. The PathMaster LED engine utilizes high performance white LEDs combined with a solid-state integral driver circuit.

Benefits

- Perfect for small illuminating spaces
- Aesthetically appealing and designed for architectural excellence
- Available in numerous finishes that are complimentary to many different spaces

Features

- The face plate is constructed of die cast aluminum with a durable powder coat finish
- All LED and electrical components are protected by both a polycarbonate lens and high impact power supply
- Neoprene gasket is provided standard for exterior applications

Application

- Office
- Banks
- Hospitality
- Fashion
