

Increasing pole functionality

Pole Options - Plant Support (PS)

Lumec's plant support arms are designed to fit round, fluted, square and multisided poles using a central tubing inserted through two opposite holes or by a variety of cast aluminum arms. Consult factory for all plant support heights and orientations. ~LT~br~GT~ ~GT~ Plant supports should hold plants at least 8 feet above the ground. ~LT~br~GT~ ~GT~ Flower pot supplied by others. ~LT~br~GT~
