

Increasing pole functionality

Pole Options – Sign Adaptor (SA1)

Lumec's mechanically assembled Sign Adaptors SA1 are designed to fit 4" round (102 mm) or 5 9/16" (141 mm) poles, using cast-aluminum quarter-circle pieces that are mechanically assembled on site. Aluminum signs 1/4"(6 mm), supplied by others, are mechanically assembled between the cast-aluminum quarter-circles.

Benefits

- Decorative, yet durable

Features

- Designed to fit 4" or 5 9/16" round poles

Application

- Bridges, Monuments, Facades
- Road and Street
