

Square Lantern - blending traditional luminaire forms with modern lighting function

Square Lantern Small (L20)

Creating a warm and friendly ambience with its design while offering high-end technology. The LED Square Lantern draws on the designs of yesteryear in order to evoke a feeling of harmony and warmth in any project. This luminaire is another example of how Lumec melds feelings of old-time luminaires with modern lighting techniques and LED technology. This blend of form and function makes the Square Lantern luminaire an excellent choice for any environment.
