

# Legacy Straight Square Aluminum Pole – superior structural quality

## Legacy Straight Square Aluminum Pole

The Gardco legacy straight square aluminum pole consists of a one piece square extruded aluminum lighting standard mounted to a cast aluminum base, a hinged aluminum base, or a structural quality carbon steel base tenon. This construction offers the corrosion resistance and flexibility of aluminum with the strength and integrity of steel. The poles are finished with either Architectural Class 1 anodizing or electrostatically applied TGIC polyester powder coat.

### Benefits

- Built to withstand harsh environmental conditions
- Superior corrosion resistance
- Optimal strength and durability

### Features

- 4", 5" or 6" poles
- Available in various heights ranging from 8' to 33'
- Steel tenon, cast, or hinged base options

### Application

- Parks and Plazas
- Road and Street
