

Optio - reliable IGBT dimming

Optio

Optio Lighting Control panels provides IGBT dimming technology in a wall-mountable enclosure. Philips offers three scalable configurations – 3 module (up to 12 circuits), 6 module (up to 24 circuits), and 9 module (up to 36 circuits) to address the demands of commercial and architectural lighting applications.

Benefits

- No mechanical buzz for silent operation
- Smaller and lighter to fit in compact spaces
- Integrates with a wide range of lighting system protocols

Features

- Built-in LCD control panel for set-up and diagnostics
- Natural convection cooling: no cooling fans or air filters
- UL and cUL listed
- Made in USA

Application

- Office
- Banks
- Hospitality
- Fashion
- Education
