

Metronomis, masts and brackets

ZRP554 METRONOMIS SHORT CURVED BRACKET

One of the main characteristics of the Metronomis product range is the total solution that it offers architect and lighting designers. Architectural enhancement can only be fully realised when both the luminaires and their supports are part of an integrated concept. To this end, Metronomis includes a range of dedicated columns and brackets – exclusive to Philips – which are consistent with the visual style of the luminaires.
