

# Maxos TL-D, decorative solutions

## 9MX056 EP-WG

### ACC MAXOS

The Wing optic is a reflector solution creating soft indirect light without glare and is ideal for office and shop applications. It is made of white powder-coated steel. A perforated curved sheet hides the lamps. The reflectors are available for electrical units holding 1 or 2 TL-D lamps. The 2-lamp version of the Wing optic must be used with special electrical units (lamp holder F32 mm) for TL-D lamps. TL5 solutions are available on request. The Wing optic is fixed to the electrical unit via a simple click-in. The reflectors can be connected to each other without additional coupling pieces, as they are delivered with an integrated connection side at one end of the reflector. Decorative end-plates for the beginning and end of the light line are available as accessories.

### Product data

General Information	
Accessory color	-
Product family code	9MX056 [ACC MAXOS]
Approval and Application	
Ingress protection code	-
Protection class IEC	-
Product Data	
Order product name	9MX056 EP-WG

Full product name	9MX056 EP-WG
Full product code	403073202762000
Order code	910606195021
Material Nr. (12NC)	910606195021
Numerator - Quantity Per Pack	1
EAN/UPC - Product/Case	4030732027620
Numerator - Packs per outer box	1
EAN/UPC - Case	4030732027620
