

# Dynalite Integration Devices

## PDEG

Within any modern project, many third-party systems can be found performing different roles. Each separate system may use a different protocol for communication. Philips Dynalite has developed a range of gateway devices that can be used to synchronize these systems' functions into one integrated system solution. By utilizing the correct gateway, different systems can be integrated, allowing end-users access to a fully automated site from one interface. By successfully integrating third-party systems with a Dynalite solution, repetitive end-user interaction is reduced.

### Product data

| General Information       |                                                                                             | Full product name               |                 |
|---------------------------|---------------------------------------------------------------------------------------------|---------------------------------|-----------------|
| Remarks                   | Please download the Lighting - Product Data Sheet for more information and ordering options | Full product code               | 871869600172100 |
| CE mark                   | CE mark                                                                                     | Order code                      | 913703013809    |
| EU RoHS compliant         | Yes                                                                                         | Material Nr. (12NC)             | 913703013809    |
| Temperature               |                                                                                             | Numerator - Quantity Per Pack   | 1               |
| Ambient temperature range | -5 to +50 °C                                                                                | EAN/UPC - Product/Case          | 8718696001721   |
