

# Dynalite System Integration

## DDNG485

Within any modern project, many third-party systems can be found performing different roles. Each separate system may use a different protocol for communication. Philips Dynalite has developed a range of gateway devices that can be used to synchronize these systems' functions into one integrated system solution. By utilizing the correct gateway, different systems can be integrated, allowing end-users access to a fully automated site from one interface. By successfully integrating third-party systems with a Dynalite solution, repetitive end-user interaction is reduced.

### Product data

<b>General Information</b>		<b>Full EOC</b>	871016350787300
<b>Remarks</b>	Please download the Lighting – Product Data Sheet for more information and ordering options	<b>Local code description</b>	DDNG 485
<b>CE mark</b>	CE mark	<b>Order code</b>	50787300
<b>EU RoHS compliant</b>	Yes	<b>Material no. (12 NC)</b>	913703081209
<b>Temperature</b>		<b>Local order code</b>	DDNG 485
<b>Ambient temperature range</b>	0 to +50 °C	<b>SAP numerator – quantity per pack</b>	1
<b>Product Data</b>		<b>EAN/UPC – Product/Case</b>	8710163507866
<b>Order product name</b>	DDNG485	<b>Numerator – packs per outer box</b>	1
<b>Full product name</b>	DDNG485	<b>EAN/UPC – Case</b>	8710163507873
