

Dynalite Integration Devices

DDNI485

Within any modern project, many third-party systems can be found performing different roles. Each separate system may use a different protocol for communication. Philips Dynalite has developed a range of gateway devices that can be used to synchronize these systems' functions into one integrated system solution. By utilizing the correct gateway, different systems can be integrated, allowing end-users access to a fully automated site from one interface. By successfully integrating third-party systems with a Dynalite solution, repetitive end-user interaction is reduced.

Product data

| General Information | |
|---------------------------|---|
| Remarks | Please download the Lighting - Product Data Sheet for more information and ordering options |
| CE mark | CE mark |
| EU RoHS compliant | Yes |
| Temperature | |
| Ambient temperature range | 0 to +50 °C |
| Approval and Application | |
| Ingress protection code | IP20 [Finger-protected] |

| Product Data | |
|---------------------------------|-----------------|
| Order product name | DDNI485 |
| Full product name | DDNI485 |
| Full product code | 871016350788000 |
| Order code | 913703081309 |
| Material Nr. (12NC) | 913703081309 |
| Numerator - Quantity Per Pack | 1 |
| EAN/UPC - Product/Case | 8710163507880 |
| Numerator - Packs per outer box | 1 |
| EAN/UPC - Case | 8710163507897 |
