CGS441 CDO-TT150W K IC FG GR ST C10K

Big Copenhagen, MASTER CityWhite CDO-TT, 150 W

Copenhagen was developed in conjunction with Copenhagen's Office of City Architecture to enhance the aesthetic appeal of the city's lighting. The result is a luminaire that can be used for a number of applications, from roads to squares, while maintaining design consistency. Copenhagen is available in two sizes to ensure that the scale of the luminaire is always in keeping with the varying heights of poles and suspensions. A choice of symmetrical or asymmetrical distributions and a wide selection of light sources, including state-of-the-art LED technology, complete the specification of an extremely adaptable luminaire.
