OPERATING INSTRUCTIONS:

- Before replacing, turn off power and let lamp cool to avoid electrical shock or burn.
- For indoor use only.
- Do not allow hot bulb to come in contact with liquid or metal parts of the fixture as glass may shatter.
- Suitable for use in open fixtures.
- Do not exceed the maximum wattage rating of the fixture.
- Do not use if outer glass is scratched or broken since it may break during operation or removal.
- If outer glass breaks the lamp may continue to light, however, immediately discontinue use.
- Due to the heat that radiates from the bulb, do not use in close proximity to combustible materials or objects susceptible to drying or fading.
- Handle in accord with disposal laws.

CAUTION:

Before using bulb, see operating instructions. Adherence to the operating instructions will reduce the risk of personal injury or fire. The filament capsule contained inside this glass bulb is pressurized, operates at high temperature and could unexpectedly shatter. Should the outer bulb break, particles of extremely hot glass could be discharged into the fixture and/or the surrounding environment, thereby creating a risk of personal injury or fire.

REHINDER:

Turn off the power before changing light bulbs.
