Highlights

Gentle LEDs, easy on the eyes

It's easy to see how harsh lighting can strain the eyes. Too bright, and you get the glare. Too soft and you experience flicker. Now you can gently light up your world with LEDs designed to go easy on the eyes, and create the perfect ambience for your home.

No visible flicker

When your light flickers in quick succession it could be hard on the eyes, cause headaches, and even set off an attack for those with photosensitive epilepsy. It's both unpleasant and unnecessary. LEDs can flicker because of their rapid response to the driver current. However, because Philips LEDs are designed so that variations in your driver current's output are minimized, they eliminate the factors that cause flicker. So, you won't see it, not even a hint.

Reduces energy costs

Estimated yearly energy cost for this LED bulb is \$1.74, based on 3 hours a day usage at 11¢/kWh.

Easily replaces incandescent

This bulb is an easy switch from standard incandescent A19 bulbs and delivers quality light for table and floor lamps, pendant fixtures and wall sconces.

A simple LED for everyday use

The Philips everyday LED is the perfect bulb for basic lighting needs. It provides the beautiful light and dependable performance you expect from LED at an affordable price.

Instant On

Just by turning the switch, the light is at full brightness. No slow starting or waiting.
