# Automate your lights

Control your Philips Hue white lights from anywhere in the world, as long as you have internet. Or automate your lights to make it seem like you're home when you're not. Works with Amazon Alexa, Apple Homekit and Google Assistant.

## Easy control and comfort

- Smart control, home and away
- Set timers for your convenience
- Installation free dimming
- Control with your voice

# PHILIPS

# Highlights

## Smart control, home and away

With the Philips Hue iOS and Android apps you can control your lights remotely wherever you are. Check if you have forgotten to switch your lights off before you left your home, and switch them on if you are working late.

## Timers for your convenience

Philips Hue can make it seem like you're home when you're not, using the schedule function in the Philips Hue app. Set the lights to come on at a pre-set time, so the lights are on when you arrive home. You can even set rooms to light up at different times. And of course, you can let the lights turn off gradually in the night, so you never have to worry whether you've left any lights on.

## Installation free dimming

Experience guaranteed smooth dimming with Philips Hue. Not too bright. Not too dark. Just right. No need for wires, an electrician or installation

## Control with your voice

Philips Hue works with Amazon Alexa, Apple HomeKit and Google Home, powered by the Google Assistant, to allow you to control your lights with your voice. Turn your lights on and off. Dim to the desired brightness for a perfect ambiance. Even recall pre-set scenes, change colors and more – all without lifting a finger.

# Specifications

## Also tested on

- Android: 2.3 or later
