# Highlights

## Standard bulb replacement

Philips Dimmable Clear Glass LED Light Bulbs are a smart, energy-saving alternative to your standard incandescent. This B11 household bulb is the perfect replacement for anywhere traditional candle-shaped bulbs with a candelabra base are used, such as chandeliers, foyer fixtures, recessed coves and bedrooms. The classic glass design with exposed filament offers a warmly nostalgic appearance that beautifully illuminates your decor.

## Energy saving

Enjoy the energy-savings of LEDs without sacrificing light quality

## Gentle LEDs, easy on the eyes

It's easy to see how harsh lighting can strain the eyes. Too bright, and you get the glare. Too soft and you experience flicker. Now you can gently light up your world with LEDs designed to go easy on the eyes, and create the perfect ambience for your home.

## No visible flicker

When your light flickers in quick succession it could be hard on the eyes, cause headaches, and even set off an attack for those with photosensitive epilepsy. It's both unpleasant and unnecessary. LEDs can flicker because of their rapid response to the driver current. However, because Philips LEDs are designed so that variations in your driver current's output are minimized, they eliminate the factors that cause flicker. So, you won't see it, not even a hint.

## Multiple application

Suitable for use in enclosed fixtures and Ideal for any room in your home.
