## The more you dim, the warmer the light

Not all LEDs dim the same. Philips dimmable LED PAR20 spot light bulbs with a warm glow effect work like halogen bulbs by getting warmer in tone when dimmed. Other LED bulbs simply get less bright, without a cozy glow.

### High quality light

- Designed for the comfort of your eyes

### Light beyond illumination

- Dimmable
- Instant on

# Highlights

## Gentle LEDs, easy on the eyes

It's easy to see how harsh lighting can strain the eyes. Too bright, and you get the glare. Too soft and you experience flicker. Now you can gently light up your world with LEDs designed to go easy on the eyes, and create the perfect ambience for your home.

## Instant on

## Dimmable

This bulb can be used with most dimmers to create your desired ambience with smooth dimming to 10% of full light levels. Please check the dimmability compatibility chart to be certain that your particular dimmer can be used with this bulb.
