

DMNG-USB-NA Network Gateway

DyNet network access device

The DMNG-USB-NA is a network gateway that provides access to a DyNet lighting control system via a PC.

- The DMNG-USB-NA provides a useful interface between any PC and the Philips system — Complete access to all network messages present on DyNet. To be used in conjunction with any of the Philips software, this tool can be used to commission, diagnose/repair with EnvisionProject or used as a permanent gateway to the system for EnvisionManager head-end software.
- Powered by the DyNet network — No additional power supply requirement.
