Mains powered

Smart control with Hue Bridge*

17344/30/VO

Automate your lights

The Inara outdoor wall lantern is a traditional fixture that offers the smart lighting capabilities of Philips Hue. Connect to the Hue Bridge and set your lights to turn on when you near home or automate your lights to mimic your presence.

Limitless possibilities

- Away-from-home smart light control
- Come home to a house filled with light
- Make it look like you're home with smart lights
- Connect to your Hue Bridge for full smart lighting control
- Control lights with your voice
- Weatherproof outdoor light fixture
- High-quality aluminum and superior synthetics

Highlights

Control lights away from home

The Philips Hue app gives you complete control over your lights, even if you're not home. Switch your lights off and on remotely using just the app to ensure your home is always lit the way you want it.

Connect to the Hue Bridge

This product requires a connection to the Hue Bridge to unlock the full smart control and features. Control your lights using the Philips Hue app, set timers, routines, add or remove lights and more. *Hue Bridge sold separately

Weatherproof light fixture

The smart light fixture is designed especially for outdoor use and has undergone rigorous tests to ensure that it can withstand all weather. It is UL Wet Location rated, meaning that it will hold up against even the worst rainstorms.

Come home with light

Set your Philips Hue app to recognize when you're nearing home. Before you even step out of your car or walk up the path, your selected smart lights turn on automatically.

Control with your voice

When connected to the Hue Bridge, you can pair your lights with Alexa, Apple HomeKit, and the Google Assistant and control your lights using just your voice. Simple voice commands let you turn your lights on and off, dim or brighten your lights, and even set a light scene.

High-quality materials

Constructed with high-quality aluminum and strong synthetic materials, Philips Hue outdoor smart lighting fixtures can withstand any weather conditions.

Make it look like you're home

Use the Philips Hue app to schedule light routines whenever you're away. Your smart lights will turn on at the times you've selected • and sometimes a few minutes before or after • to truly mimic your presence in the house.
