Turn sunlight into LED light

Capture the sun's energy with Philips myGarden Dusk wall light. The high-capacity solar panel and efficient LEDs combine for long-lasting light. The ingenious design offers style and beautiful light, and a motion sensor.

Sustainable light solutions

- High quality LED light
- Warm white light
- Solar energy
- Maximum light duration: 6 hours
- Philips offers 5 year warranty on the LED module and driver

Special characteristics

- On/off switch on article

Designed for your garden

- Motion sensor included, for convenience and reassurance
- Unique day/night function
- IP44 - weather proof
- Integrated solar panel
- No power cables required

Highlights

High quality LED light

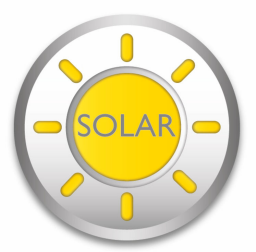

The LED technology, integrated into this Philips lamp, is a uniquely developed solution by Philips. While instantly turned on, it enables an optimal light output and brings out vivid colors in your home.

Warm white light

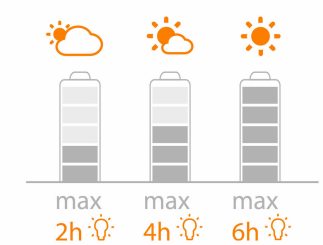

Light can have different color temperatures, indicated in units called Kelvin (K). Lamps with a low Kelvin value produce a warm, more cosy light, while those with a higher Kelvin value produce a cool, more energising light. This Philips lamp offers warm white light for a cosy atmosphere.

Solar energy

Philips myGarden Solar lights are designed to make the most of the energy they receive from the sun, for light that lasts longer. With no electricity consumption at all, it helps you save money on your electricity bills and do your bit for the environment.

Maximum light duration: 6 hrs

Philips myGarden Solar lights are designed to make the most of the energy they receive from the sun, for light that lasts longer. Both the solar panel and LED light are of the highest quality to maximize sunlight collection. The length of lighting time depends on the amount of sunlight the solar panel receives. In good weather conditions, this light has a miaximum light duration of 6 hours. Furthermore, energy-saving features such as an on/off switch or a motion sensor help to ensure that whatever the weather or time of year, you ll always be able to light your outdoor areas brightly.

5 year warranty on LED system

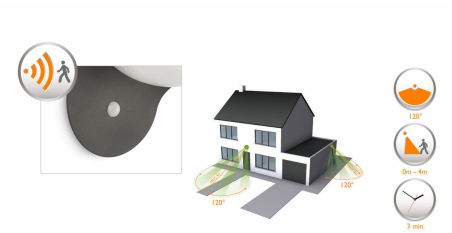

On top of the standard 2 year warranty for this lamp, Philips offers 5 year warranty on the LED system, meaning the LED module and the driver in this lamp.

On/off switch on article

With the button discreetly integrated onto the lamp, you can easily switch the light on and off.

Motion sensor included

A motion sensor is included to welcome you when you return home or let you know when someone has arived. When the sensor detects movement, the lamp switches on automatically.

Unique day/night function

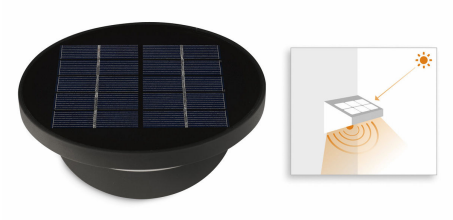

Thanks to the day/night function, this outdoor light automatically switches on when it gets dark outside. Use this unique function for long summer evenings or for safety reasons.

IP44 - weather proof

This Philips outdoor light is especially designed for humid outdoor environments. It was tested rigorously to ensure its water resistance. The IP level is described by two figures: the first one refers to the protection level against dust, the second against water. This outdoor light is designed with IP44: it is protected against splashing water, this product is most common and ideal for general outdoor use.

Integrated solar panel

This Philips myGarden Solar light has an integrated solar panel as part of the light. The light is free of cables and emits up to 100 lumens of light, enough to illuminate a defined area or highlight a feature.

No power cables required

Philips myGarden Solar takes the hard work and hassle out of outdoor installation, requiring just a few simple minutes to place in your garden √ even if you've never installed outdoor lighting before. With no mains power cables to worry about, there is lots of flexibility for placement, since you don't need to be close to a power socket.
