Freshen up with beautiful natural light

Make every bath a refreshing experience with the warm white aura of the Philips myBathroom Spa wall and ceiling light. The quality white glass diffuser keeps the light bright yet comfortable. Say yes to true skin color and energy savings.

Sustainable light solutions

- Always a Philips bulb included
- Energy saving
- Warm white light

Designed for your bathroom

- IP44, perfectly suited for your bathroom
- True skin color with high quality light

Highlights

Always a Philips bulb included

High quality Philips EcoLamp energy efficient light bulbs are included in the box to achieve the best light effect.

Energy saving

This Philips energy saving lamp conserves energy compared to traditional light sources, helping you to save money on your electricity bills and do your bit for the environment.

Warm white light

Light can have different color temperatures, indicated in units called Kelvin (K). Lamps with a low Kelvin value produce a warm, more cosy light, while those with a higher Kelvin value produce a cool, more energising light. This Philips lamp offers warm white light for a cosy atmosphere.

True skin color

This Philips bathroom light makes colors reflect in a natural and accurate way. Just the way the sun would do.

IP44 - bathroom safe

This Philips bathroom light is especially designed for humid environments. It was tested rigorously to ensure its water resistance. The IP level is described by two figures: the first one refers to the protection level against dust, the second against water. This bathroom light is designed with IP44: it is protected against splashing water, this product is most common and ideal for bathroom use.
