Freshen up with beautiful natural light

Philips myBathroom Fountain ceiling light flows with warm white light. It depicts skin tones accurately as its quality light illuminates brightly. The frosted glass cover is wittily decorated with droplets, even though it is waterproof.

Designed for your bathroom

- True skin color with high quality light
- IP21, perfectly suited for your bathroom

Highlights

Always a Philips bulb included

High quality Philips EcoLamp energy efficient light bulbs are included in the box to achieve the best light effect.

Energy saving

This Philips energy saving lamp conserves energy compared to traditional light sources, helping you to save money on your electricity bills and do your bit for the environment.

Warm white light

Light can have different color temperatures, indicated in units called Kelvin (K). Lamps with a low Kelvin value produce a warm, more cosy light, while those with a higher Kelvin value produce a cool, more energising light. This Philips lamp offers warm white light for a cosy atmosphere.

True skin color

This Philips bathroom light makes colors reflect in a natural and accurate way. Just the way the sun would do.

IP21 - bathroom safe

This Philips bathroom light is especially designed for humid environments. It was tested rigorously to ensure its water resistance. The IP level is described by two figures: the first one refers to the protection level against dust, the second against water. This bathroom light is designed with IP21: it is protected against dripping water.
