PHILIPS

Highlights

Energy saving

This Philips energy-saving lamp conserves energy compared with traditional light sources, helping you to save money on your electricity bills and do your bit for the environment.

High quality LED light

The LED technology integrated into this Philips lamp is a unique solution developed by Philips. It turns on instantly, enables an optimal light output and brings out vivid colours in your home.

Warm white light

Light can have different colour temperatures, indicated in units called Kelvin (K). Lamps with a low Kelvin value produce a warm, more cosy light, while those with a higher Kelvin value produce a cool, more energising light. This Philips lamp offers warm white light for a cosy atmosphere.

5-year warranty on LED system

On top of the standard 2-year warranty for this lamp, Philips offers a 5-year warranty on the LED system, meaning the LED module and the driver in this lamp.

Perfect to relax and socialise

The living room is the heart of any home: a place where families gather to relax and guests socialise. Lighting for your living room and bedroom has to be flexible and easy to adjust to its different uses throughout the day. Careful placement of different light sources and playing with light layering helps create the feeling of space and gives the room a warm and welcoming feel.

Create a stylish atmosphere

This light is designed around the latest tastes, trends and lifestyles to blend effortlessly into your décor and define the localised ambience you have always desired.
