Freshen up with beautiful natural light

The Philips myBathroom Hotstone LED wall light drips with simple perfection. With a synthetic diffuser and chrome base, the handsome lamp shows skin in its correct color, while clearly illuminating the room.

Sustainable light solutions

- Energy saving
- High quality LED light
- Warm white light
- Philips offers 5 year warranty on the LED module and driver

Designed for your bathroom

- IP44, perfectly suited for your bathroom
- True skin color with high quality light

Highlights

Energy saving

This Philips energy saving lamp conserves energy compared to traditional light sources, helping you to save money on your electricity bills and do your bit for the environment.

High quality LED light

The LED technology, integrated into this Philips lamp, is a uniquely developed solution by Philips. While instantly turned on, it enables an optimal light output and brings out vivid colors in your home.

Warm white light

Light can have different color temperatures, indicated in units called Kelvin (K). Lamps with a low Kelvin value produce a warm, more cosy light, while those with a higher Kelvin value produce a cool, more energising light. This Philips lamp offers warm white light for a cosy atmosphere.

5 year warranty on LED system

On top of the standard 2 year warranty for this lamp, Philips offers 5 year warranty on the LED system, meaning the LED module and the driver in this lamp.

IP44 - bathroom safe

This Philips bathroom light is especially designed for humid environments. It was tested rigorously to ensure its water resistance. The IP level is described by two figures: the first one refers to the protection level against dust, the second against water. This bathroom light is designed with IP44: it is protected against splashing water, this product is most common and ideal for bathroom use.

True skin color

This Philips bathroom light makes colors reflect in a natural and accurate way. Just the way the sun would do.

Specifications
