## Freshen up with beautiful natural light

Due to its proximity to water, this Philips myBathroom Hydrate wall light is sealed against moisture. It has a quality glass diffuser, chrome base and switch for comforting white light that is optimal and accurate with skin colour.

### Sustainable light solutions

- Compatible with in-wall dimmers
- Philips bulb always included
- Energy saving
- Warm white light

### Special characteristics

- Cable exit
- On/off switch on article

### Designed for your bathroom

- True skin colour with high-quality light
- IP21, perfectly suited for your bathroom

# Highlights

## Compatible with in-wall dimmers

Adjust the brightness of this Philips light with an in-wall dimmer (not included) to set the mood in the room, highlight a feature of your home and more.

## Philips bulb always included

High-quality Philips light bulbs are included in the box for achieving the best light effect.

## Energy saving

This Philips energy-saving lamp conserves energy compared with traditional light sources, helping you to save money on your electricity bills and do your bit for the environment.

## Warm white light

Light can have different colour temperatures, indicated in units called Kelvin (K). Lamps with a low Kelvin value produce a warm, more cosy light, while those with a higher Kelvin value produce a cool, more energising light. This Philips lamp offers warm white light for a cosy atmosphere.

## Cable exit

A cable exit allows you to mount the lamp on your wall and connect it with a normal wall plug.

## On/off switch on article

With the button discreetly integrated into the lamp, you can easily switch the light on and off.

## True skin colour

This Philips bathroom light makes colours reflect in a natural and accurate way, just the way the sun would do.

## IP21 - bathroom-safe

This Philips bathroom light is especially designed for humid environments. It was tested rigorously to ensure its water resistance. The IP level is described by two figures: the first one refers to the protection level against dust, the second against water. This bathroom light is designed with IP21: it is protected against dripping water.

# Specifications

## Design and finishing

- Colour: chrome
- Material: glass

## Extra feature/accessory incl.

- Dimmable: Yes

## Miscellaneous

- Especially designed for: Bathroom
- Style: Contemporary
- Type: Wall light
- EyeComfort: No
