- Energy saving
- High quality LED light
- Long operating life up to 15 years
- Warm white light
- Philips offers 5 year warranty on the LED module and driver

Special characteristics

- On/off switch on article

Highlights

Energy saving

This Philips energy saving lamp conserves energy compared to traditional light sources, helping you to save money on your electricity bills and do your bit for the environment.

High quality LED light

The LED technology, integrated into this Philips lamp, is a uniquely developed solution by Philips. While instantly turned on, it enables an optimal light output and brings out vivid colors in your home.

Long operating life

A light source you can trust. The integrated LEDs, used in this Philips LED lamp, will last up to 15.000 hours (which equals 15 years on basis of an average use of 3 hours / day with an amount of at least of 13.000 on/off switching cycles). It feels so comfortable to think that you won't have to worry about maintenance or light bulb replacement while having the perfect light ambiance in your home.

Warm white light

Light can have different color temperatures, indicated in units called Kelvin (K). Lamps with a low Kelvin value produce a warm, more cosy light, while those with a higher Kelvin value produce a cool, more energising light. This Philips lamp offers warm white light for a cosy atmosphere.

5 year warranty on LED system

On top of the standard 2 year warranty for this lamp, Philips offers 5 year warranty on the LED system, meaning the LED module and the driver in this lamp.

On/off switch on article

With the button discreetly integrated onto the lamp, you can easily switch the light on and off.

Specifications

Design and finishing

- Color: white
- Material: metal

Extra feature/accessory incl.

- 5 years warranty on the LED module: Yes
- Bi-directional light beams: Yes
- LED integrated: Yes
