Versatile lighting for every moment of your day

- Dims smoothly from 100% bright down to 10% soft light

Superior design for an optimal light effect

- Long lasting, high quality material
- Adjustable spot head for maximum flexibility
- The perfect light beam for accent lighting

Highlights

Energy saving LED light
LED lights save up to 80% energy compared to a traditional lighting with the same light output. When you buy a Philips LED lamp or light bulb, you start saving money right away. For each light source you replace with a LED light, you will see immediate returns on a lower energy bill.

Lifetime for up to 30 years
LED lights last longer, avoiding the hassle of frequent replacing of your light source. This significantly reduces waste but also saves you money in the long term.

Instant brightness
There is no need to wait with Philips LED spots. They provide their full level of brightness immediately upon switching on. Their true incandescent-like warm white light instantly creates a cosy inviting atmosphere.

Warm white light
Light can have different colour temperatures, indicated in units called Kelvin (K). Bulbs with a low Kelvin value produce a warm, cosy light, while those with a high Kelvin value produce a cool, more energising light.

High light output - 1500 lumen
Brighten up your home with high quality light

Gentle LEDs, easy on the eyes

It's easy to see how harsh lighting can strain the eyes. Too bright, and you get the glare. Too soft and you experience flicker. Now you can gently light up your world with LEDs designed to go easy on the eyes, and create the perfect ambience for your home.

Integrated LED light
This spot has an integrated high quality LED light that provides optimal light output.

5 year warranty
All our spot lights are built to last. They come with a full 5 year warranty on the complete product, ensuring you will enjoy long-lasting quality lighting every day.

Smooth and deep dimming
Change your room ambiance to suit whatever you're doing. With the Philips Dimmable LED spots you can easily adjust the light brightness at a turn of your dimmer. Dim smoothly from 100% bright light for functional activities, down to 10% soft light for a relaxed free time.

High quality material
This spot light is made of long lasting, high quality materials with superior finishing. This ensures a solid and durable product which will enhance and light up your home for many years to come.

Easy-to-adjust spot head
The adjustable spot head is designed to direct the light where you need it most.

Perfect for accent lighting
Modern lighting with a familiar wide angle light output (40 degrees), this LED spot is suitable for both accent lighting and general purpose lighting. It is ideal for use in kitchens, living rooms and dining rooms.
