Easy control and comfort

- Smart control, home and away
- Set timers for your convenience
- Installation free dimming
- Control it your way
- Dimmable only with Philips Hue compatible devices
- Wirelessly controllable LED bulb
- Requires a Philips Hue bridge
- Perfect fit

Highlights

Wake up and go to sleep

Philips Hue will help get you out of bed the way you like it, helping you start your day feeling refreshed. The light brightness increases gradually mimicking the effect of sunrise and helps you wake up naturally, instead of being woken up by the loud sound of an alarm clock. Start your day, the right way. In the evening, the relaxing warm white light helps you to unwind, relax and prepare your body for a good night's sleep.

Create your ambiance

Set the right ambiance for any moment and decorate your home with warm to cool white light. Enjoy different styles throughout the year, no matter if it's the crisp white light reminding you of a spring breeze, the warm white light of a summer sun, or the ice cool daylight of winter.

Light for your daily routines

Light influences our mood and behavior. Philips Hue can help you to customize your daily routines into moments you can enjoy. Skip your morning coffee and get ready for the day with cool, bright white daylight that helps to energize your body and mind. Stay focussed with finely tuned bright white light. Or put your feet up and relax with a soft glow of white light for the perfect end of the day.

Smart control, home and away

With the Philips Hue iOS and Android apps you can control your lights remotely wherever you are. Check if you have forgotten to switch your lights off before you left your home, and switch them on if you are working late.

Timers for your convenience

Philips Hue can make it seem like you're home when you're not, using the schedule function in the Philips Hue app. Set the lights to come on at a pre-set time, so the lights are on when you arrive home. You can even set rooms to light up at different times. And of course, you can let the lights turn off gradually in the night, so you never have to worry whether you've left any lights on.

Installation free dimming

Experience guaranteed smooth dimming with Philips Hue. Not too bright. Not too dark. Just right. No need for wires, an electrician or installation

8718696769805

Control it your way

Connect your Philips Hue lights with the bridge and start discovering the endless possibilities. Control your lights from your smartphone or tablet via the Philips Hue app, or add switches to your system to activate your lights. Set timers, notifications, alarms, and more for the full Philips Hue experience. Philips Hue even works with Amazon Alexa, Apple HomeKit and Google Home to allow you to control your lights with your voice.

Compatible device required

This product is only dimmable if connected to the Philips Hue bridge or to a Philips Hue compatible device

Wirelessly controllable LED

This LED bulb is wirelessly controllable if you connect it to the Philips Hue bridge for smart control or to the Philips Hue dimmer switch.

Requires a Philips Hue bridge

Connect your Philips Hue lights with the bridge to control your lights from your smart phone or tablet via the Philips Hue app.

Perfect fit

The Philips Hue white ambiance GU-10 lamp is designed as a perfect retrofit solution, so it blends in seamlessly with your existing spot lighting fixtures. This makes it a smart and energy-efficient alternative to traditional halogen spots
