Easy smart lighting

Get your smart lighting system started with this Starter kit, which includes three smart bulbs with soft white light, the Hue Bridge and a Switch. It's a complete kit for custom control over your home lighting and all its great features.

Limitless possibilities

- Away-from-home smart light control
- Come home to a house filled with light
- Make it look like you're home with smart lights
- Control lights with your voice
- Mount the dimmer switch anywhere

Highlights

Control lights away from home

The Philips Hue app gives you complete control over your lights, even if you're not at home. Switch your lights off and on remotely using just the app to ensure your home is always lit the way you want it.

Make it look like you're home

Use the Philips Hue app to schedule light routines whenever you're away. Your smart lights will turn on at the times you've selected, and sometimes a few minutes before or after, to truly mimic your presence in the house.

Mount anywhere

The Philips Hue Dimmer switch functions as a normal wall switch and dimmer – but better. In addition to mounting with screws or strong adhesive tape, you can remove the magnetic control and carry it with you anywhere.

Come home with light

Set your Philips Hue app to recognise when you're almost home. Before you even step out of your car or walk up the path, your selected smart lights turn on automatically.

Control with your voice

When connected to the Hue Bridge, you can pair your lights with Alexa, Apple HomeKit, and the Google Assistant and control your lights using just your voice. Simple voice commands let you turn your lights on and off, dim or brighten your lights, and even set a light scene.
