

Renaissance

Patient Bed Light
T8 Fluorescent
9618 Series

Project	Type
Project Location	
Catalog #	

The Renaissance economy grade patient bed light has the features needed for most hospital and nursing home care, yet at a price to fit the tightest budgets.

Constructed of heavy duty steel, finished in a white baked enamel paint, this sturdy bed light has soft frosted acrylic lenses for optimal patient comfort. The simple shape fits most interior décor schemes and is easily cleaned.

Although several switching options are available, the standard is a pull chain for the downlight element and a separate wall switch for the ambient light.

The Renaissance can be specified with 2, 3 or 4 T8 fluorescent lamps to fit any specification needs. Many other options are available.
