## Features

1. LED board: COB LED.
2. Integrated housing heat sink: die-cast aluminum maintains LED junction temperature for minimum $50,000 \mathrm{hr}$ lifetime at 70\% lumen maintenance.
3. Track attachment fitting: Integral color in gray, black or white. Molded polycarbonate. Rotates into track and locks into place with the use of push tabs. Located at center of mass to allow for fixture to hang vertically straight on track and with extensions wands and other track accessories.
4. Push tab: Molded polycarbonate. Locks and detaches unit.
5. Track adapter housing: Die-cast aluminum.
6. Movable brass contact: Brass extends for connection to 2nd circuit (Advent track only).
7. Pivot mounts: Allows for $350^{\circ}$ horizontal. Vertical rotation of $+/-90^{\circ}$ from vertical aim to the floor.
8. Driver housing: Extruded aluminum housing with die-cast aluminum covers. 9. Interchangeable optics: High efficiency metalized coating providing up to $98 \%$ total reflectivity for optimal light quality, beam control and punch. Reflector has lens attached which protects reflector finish and LEDs from contamination. Tool-less installation. Reflector sold separately to allow field replaceability.
10.Finishes: Painted with a baked enamel. Contains some powder coated finishes.
