

LINCS Undercabinet

LINCS Wiring Module with Integral Occupancy Sensor

LINCS Wiring Module with Integral Occupancy Sensor

The Little Inch Connecting System (LINCS) sets the standard for flexible, inconspicuous task lighting. LINCS unique labor-saving plug-together design affords premium quality at a low installed cost. The attractive extruded aluminum design dissipates heat, is durable, lightweight and corrosion resistant. Miniature 1" profile. Fluorescent lighting provides ideal rendering of task areas and displayed objects. Integral Occupancy Sensor available to reduce energy consumption.

Product data

Operating and Electrical		Order code	LINCS100OSC
Voltages	120/277 V	Material Nr. (12NC)	ALK00002023
Mechanical and Housing		Catalog Number	LINCS100OSC
Shape	Linear	Catalog Number Description	LINCS Wiring Module with Integral Occupancy Sensor
Product Data			
Order product name	LINCS Wiring Module with Integral Occupancy Sensor
