

# Customizable and durable accessories designed for all Reach powercore fixtures

## Reach Powercore Accessories

Reach Powercore accessories offer a variety of operational and aesthetic possibilities to lighting designers as well as the dependable durability associated with Philips Color Kinetics products. Multiple beam angles can be achieved with the diffuser lenses to offer a range of floodlighting options. The louver and glare shields can be installed on fixtures to improve the precision of the lighting while also providing extra protection.

### Benefits

- Creates new aesthetic possibilities—Add or combine a spread lens, louver, full glare shield or half glare shield.
- Spread Lens expands customization with a wide range of beam angle options.
