

ClearFlood – LED solution for Sports and Area lighting

ClearFlood

The Philips ClearFlood is a dedicated LED floodlight delivering economical white light solutions for recreational sports and area applications. Designed around state-of-the-art LEDs and high-efficiency optics, this very competitive solution offers energy savings compared to traditional HID solutions. ClearFlood is easy to install and perfect for replacing conventional light points as it uses the same electrical installation, columns and types of fixation.

Benefits

- Designed for 1:1 retrofit, with high energy savings and a fast return on investment
- Slim LED design giving unobtrusive profile and simple installation
- Easy to select the required lumen performance
- Constant Light Output option for added energy savings
- Five different optics ensure versatility in application

Features

- 10 lumen outputs in one form factor
- Variable lumen packages in one body size
- Easy replacement of gear and PCB
- Instant light, long lifetime, no maintenance
- CLO, DALI, 1-10 V controls
- High LED and optical efficiency
- High LED and optical efficiency
- 100% Philips components
- 100% Philips components
