

# 10-15% more efficient!

#### MASTER PL-C 2 Pin

MASTER PL-C is an efficient medium-wattage compact fluorescent lamp, typically used in general downlights for retail, hospitality and office applications. The original Philips-invented bridge technology guarantees optimum performance in the application, enabling more light and higher efficacy than the bended technology. The 2-pin version is designed for operation on electromagnetic gear and is provided with a plug-in/pull-out lamp base.

#### **Benefits**

- · Optimal light performance for short or long operation per switch-on
- · Multiple light color choice
- · Good color rendering (CRI <gt/>80)

## **Features**

- $\cdot$  2-pin base with a housing incorporating the special instant starter
- $\cdot \ \mathsf{Fluorescent} \ \mathsf{tri-phosphor} \ \mathsf{technology}$
- · Low light depreciation over lamp life

#### **Application**

- Designed for general or supplementary lighting in professional or home environments
- Recessed or surface-mounted downlighters, wall units, table lamps and pendant lamps

#### **Warnings and Safety**

- · Use only with electromagnetic control gear
- Lamp light technical and electrical characteristics are influenced by operating conditions, i.e. lamp ambient temperature and operating position
- · Dimming is not possible
- A lamp breaking is extremely unlikely to have any impact on your health. If a lamp breaks, ventilate the room for 30 minutes and remove the parts, preferably with gloves. Put them in a sealed plastic bag and take it to your local waste facilities for recycling. Do not use a vacuum cleaner.
