

Product Description

MASTER MHN-SE

Very compact quartz metal halide lamps with single-pin GX-22 lamp cap

Benefits

- Allows compact, highly efficient luminaire systems with high-precision optics for good beam control and minimal light spill
- Very good colour rendering creates a pleasant ambience with high visual comfort for players and spectators
- Continuous spectral distribution offers a superior solution for professional stadiums with regular TV coverage

Features

- Single-pin concept for superior optical performance
- High luminous efficacy
- Natural white colour appearance, very good colour rendering and good colour stability
- Daylight colour temperature eases transition from daylight to artificial lighting

Application

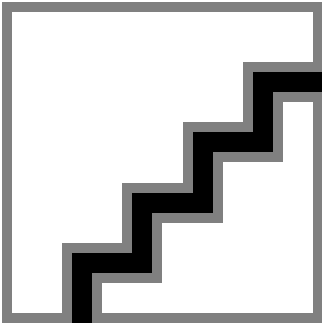

- Professional sports lighting
